**RECENT OPERATIONS:**

PSE-125                      Parkinson SuperWalk  
SAT 10 SEP 12 ARES Volunteers  
Coordinated by Dick VE4HK  
Planned to use VE4ARC but performance was sub-optimal.

PSE-124                      CANWARN Net Control  
Concluded 11 SEP after 17 weeks. Approximately 15  
ARES members.  
Still need to analyze this season's logs.  
Still need additional Net Controllers.

**PREPAREDNESS:**

Fall WEM Courses:  
18-20 OCT VE4s CLK & SIG  
15-17 NOV VE4s SYM & YYL.

Agreement with Interlake ARC regarding VE4ARC was completely signed 24 AUG.  
Landlord for repeater site notified in writing 26 AUG. WPGARES Emergency Contact  
List left posted on face of repeater rack. As of 15 SEP, VE4ARC call-sign has been  
assigned to Winnipeg ARES Inc., certificate holder is Fred Collings VE4TRO.

Recommendation of Repeater Technician Yori Tsuji VE4ACX is to replace 2m repeater  
with MSR-2000 and replace power supply. Seems that a suitable MSR-2000 may be  
available just for the cost of new xtals. Dave Stimpson VE4DJS has stepped forward to  
be Yori's understudy for servicing VE4ARC.
